#### ADS – CSP Direct Partner of the year 2019 for Business Applications

5 offices In Malaysia & ASEAN

More than 20 years experience

More than 300 Implemented sites

**HRDF Training Provider** 

# Global network of specialized partners

## We See More Than Just a Customer, We See a Partner!

## We See More Than Just a Customer, We See a Partner!

Aroma of Good Times

#### **Power Apps Mission**

# Empower every developer to do more.

Citizen Developers.

IT Developers.

Pro Developers.

### Empower everyone to do more

#### **Citizen developers**

- Understand the business.
- Solve their own problems.

#### IT professionals

- Enable high productivity app development.
- Implement governance and compliance.

#### Professional developers

- Reduce time to develop and deploy.
- Use code to unblock complex requirements.

### **Microsoft Power Platform**

One low-code platform that spans Office 365, Dynamics 365, Azure and standalone applications

### **Microsoft Power Platform**

One low-code platform that spans Office 365, Dynamics 365, Azure and standalone applications

Innovation anywhere. Unlocks value everywhere.

### Develop faster than ever before with the Microsoft Platform

Pro Developers + Power Platform = No Limits

### Integrated low-code platform

**Power Bl** 

**.** 

### **Power Apps:** a low-code approach to building apps

Easily build apps with a full featured lowcode / no-code platform

Connect to your existing data with pre-built connectors and custom connectors

Store your data in the Common Data Service

ዾ፝ዾ፟	
ጉደሚ	
لهلما	

Integrated with Office 365, Azure, Dynamics 365, and Power BI

Strong enterprise governance & security

Pro-dev extensibility

# Enabling digital transformation across the organization

Model Driven Apps

Portals

### Put your data to work with the Common Data Service

- "Out-of-the-box" data store for your apps
- Advanced security, business logic and rules
- Jumpstart apps with the Common Data Model
- Dynamics 365, Office 365, and Azure data is available, augmented by industry partners
- Extend to your own needs and integrate across your apps and services

### Data integration capabilities built-in to the Common Data Service

Integrate directly with CDS using the Excel Power Query features relied on by millions of users each month.

Built-in management features like CDM entity mapping UX, environments and scheduled refresh.

 $\sim$ 

300+ transformations to clean and reshape data.

A growing set of connectors to integrate with your cloud and on-premises data sources.

Open source and shared data model that provides semantic consistency for data.

Allows makers to more quickly develop applications and integrators to more easily interoperate across multiple systems. A growing set of solutions and partners that contribute to the effort by implementing CDM or extending with industry-specific domains.

#### Cloud and on-premises connectivity

Built-in connectivity to 275+ cloud services, content services, databases, APIs, etc.

Seamless hybrid connectivity to on-premises systems via the on-premises data gateway.

Break down data silos by using multiple data sources in a single application.

## Low-code AI for apps and processes with AI Builder

Low code AI solutions for Power Platform leveraging the power of Microsoft AI

Bring your data from CDS, pre-built connectors and custom connectors

Customize Dynamics 365 AI offerings to specific schema and processes with AI Builder

Predictions available in Common Data Service for Power Platform and Dynamics

Pro-Dev extensibility and governance

### Low-code solution for responsive websites with portals

- $\mathcal{A}$
- Create multilingual, responsive websites to engage with internal and external customers, partners and employees.
- 8
- Use anonymous access or any of the commercial or enterprise login providers like Microsoft Account, LinkedIn, Azure AD B2C and more.

Use WYSIWYG designer to create website content and enrich with CDS/Dynamics data using familiar constructs like forms, views, charts, dashboards.

Pro-dev extensibility and templating capabilities to design complex business processes.

Dynamics 365 provides integrated starter templates like customer self service, partner management, event management and community self service.

#### Low-code creation of reusable components

Quickly develop reusable, embeddable components with the low-code canvas.

Reuse within and across apps; compose with pro-dev components.

Enable faster and more consistent development when many makers are using the same components.

### Integrated with Office 365

Publish Power Apps as a SharePoint web part or create a custom SharePoint list experience.

Use Office 365 data through built-in connectors and Office 365 screen templates.

Build a Power Apps app from an Excel sheet on OneDrive.

Extend Dynamics 365 with mobile Power Apps solutions.

### Ensure enterprise quality with built-in app and solution checkers

Find and resolve errors (programmatic errors) and performance issues faster.

- Continued investment to provide guided experience to make debugging easier.
  - Discover accessibility issues and recommendations inline.
